ABSTRACT

BD 125 539

This text provides a statistical description of various academic libraries of North Dakota. Statistics are cited regarding: (1) size of collections of print and nonprint materials; (2) audiovisual resources; (3) utilization, including interlibrary transactions; (4) facilities; (5) finances; and (6) staff. (FMH)

\*\*\*\*\*\*\*\*\*\*\*\*\* Documents acquired by ERIC include many informal unpublished materials not available from other sources. ERIC makes every effort to obtain the best copy available. Nevertheless, items of marginal reproducibility are often encountered and this affects the quality of the microfiche and hardcopy reproductions EPIC makes available via the ERIC Document Reproduction Service (EDRS). EDRS is not responsible for the quality of the original document. Reproductions supplied by EDRS are the best that can be made from the original. \*\*\*\*\*\*\*\*\*\*\*\*\*\*\*\*\*\*\*

#### PREFACE

The compilation of statistics from public and private academic libraries is a cooperative project. The State Library Commission is pleased to be able to prepare and publish these statistics. Librarians, institutional officers, and state educational directors may want to utilize these statistics in planning future development of academic library services and for the evaluation of existing patterns of service.

The report form needs improvement and it is expected that the necessary changes will be made.

The report form for each library has been included as submitted to the State Library Commission. A minimal amount of editing has been done, and it consists only of correcting arithmetical errors. The summary sheets are a simple adding of the statistics of each institutional report. Some of the totals on the summary sheets do not add up correctly because of omissions of items in scre institutional reports.
